One key differentiator of this program is the deep integration of emotional intelligence as a toolset for your clients, and even more, for the development of self as coach so you are more aware, present, and purposeful in this work.

EQCC is built with three strands woven throughout:

- Self-as-coach: Develop your EQ skills and coaching presence.
- Structured Transformational Coaching: Learn a framework to fuel positive change.
- Coaching Process, Tools and Techniques: Develop expertise in the ICF Competencies and EQ resources.

In total, the EQ Coach Certification includes over 200 instructional hours via twelve days of hands-on training filled with laughter and learning, plus in-depth eLearning and virtual online training.

You will learn to:

- Increase awareness and skill to be the best possible coach.
- Align your awareness, presence and purpose as the foundation for effective coaching.
- Effectively structure coaching sessions.
- Build a coaching program that measurably improves performance.
- Apply coaching competencies, procedures, and tools to support clients to grow.
- Build your coaching practice in an effective way.

You will earn professional certifications from Six Seconds, ultimately leading to the prestigious "Certified EQ Coach" advanced certification.

A course which is a wakeup call into "why we do what we do."
An experience to be cherished and shared with the world.

Models and Methods

Six Seconds; Certified EQ Coach program is uniquely powerful because of the robust models and methods that coaches are able to use through this training.

Six Seconds' tools are scientific, global, and transformational, combining a robust research base, 20 years of proven experience, numerous cases and studies, and practical applications.

The Change MAP

This model articulates change as an iterative process blending the rational stages of growth with the emotional drivers that make change fail or succeed.

The Six Seconds Model

A process framework for putting emotional intelligence into action, the model includes three key steps, or "pursuits" that coaches need for themselves - and their clients need:

Increase self-awareness ("Know Yourself")

Respond instead of reacting ("Choose Yourself")

Align your choices with your long-term purpose ("Give Yourself")

Within these three areas are eight practical competencies that serve as tools for using EQ in our daily lives.

The Six Seconds Coach Framework

Visually depicted as the EQ Coach Wheel, this framework recognizes that the coach's emotional intelligence is of paramount importance in effective transformation. Change starts on the inside, so coaches need to develop their own skills to be more aware, more intentional, and more purposeful.

The next stage of the framework are the three essential skills of coaching: Listen, Ask, Connect. By using these skills effectively, coaches build their clients' insight and commitment to action.

The final ring shows the goals. Clients need to match up what they do, how they're doing it, and why. This allows them to operate with true integrity, putting their actions, intention, and purpose into alignment.
