

# The Trust Style Inventory (TSI) Certification

## The Trust Style Inventory:

The Trust Style Inventory (TSI) is an assessment that measures how people trust. It is based on the principles of the Pillar of Trust and the 6 Seconds KCG Emotional Intelligence Model. Because of this, the assessment offers a very important feature that other trust psychometrics don't: It is an emotionally intelligent instrument designed to provide respondents with a sense of safety because no-one wants to be viewed as untrustworthy.

## The Trust Style Inventory Certification:

The TSI Certification was designed with two goals in mind:

- 1) It helps practitioners address their intrinsic trust gaps before they can support others on a similar quest; and
- 2) it equips trust facilitators with tools they need to support individuals and teams with trust building.

## Get certified to use the TSI to:

- Strengthen team performance
- Build teams and better work relationships
- Initiate cultural change
- Become more agile
- Develop talent
- Improve engagement
- Resolve conflict

## Who can Benefit?

Coaches, Consultants, Change Facilitators, HR Practitioners, OD specialists, Executives, Managers, Business Owners and more can benefit from the TSI Certification.

## Course Content

*Here is what the certification entails:*

1. Learning about the Basics of Trust
2. Discovering the Pillar of Trust
3. Interpreting the Trust Style Inventory
4. Using the Trust Style Inventory to coach and develop individuals
5. Using the Trust Style Inventory to coach and transform teams
6. Using Trust Coaching Tools
7. Practice: You will complete a coaching assignment and reflect on your results.
